

STUDY GUIDE DELIVERABLES

Here's what we'll need from you.

And thank you for ordering the Study Guide.

Our work includes the writing, editing, liaison, design, proofreading and hosting on two education websites.

We will produce a version of the guide in Word and send it to you.

You can make whatever changes you like to the guide, using Track Changes. When finished, send the document back to the Guide administrator. We then design the guide using the images and key art supplied and send it to you for final approval.

The materials we need for each program are by email or Dropbox, Hightail, etc.

1. A timecode Vimeo link or downloadable file, if possible
2. The key art for the front cover of the study guide as an unflattened Photoshop file
3. 15 high-res images (300 dpi)
4. The trailer
5. A dot point outline of all the main areas you think should be covered in the study guide. This is to make sure we don't omit any area you think is important. We will add anything else we think is relevant to the Australian curriculum.
6. The press kit
7. Post-production scripts
8. Confirm that your details are correct on the supplied invoices and send through any required changes, please.
9. The broadcast dates.

It usually takes four to five weeks to complete a study guide. We can do them more quickly if necessary.

Also, ATOM is interested in the education rights (Non-Theatrical Rights), on a non-exclusive basis, to sell your program to schools, universities, and libraries. ATOM can also stream programs from **The Education Shop** as well as DVD sales.
